COMPLETE SERVICE CATALOGUE

Our company has been a leader in event entertainment since 1991, creating strong relationships with amazing wedding professionals and beautiful venues across Southern California. One of our earliest partnerships was with the team from Spaggi's.

Entertainment Express became a go-to provider of entertainment service for Spaggi's events, often working side by side with Chef Henry and his team. So, when Chef Henry & Ana were approached to transform the Fontana Woman's Club into an event venue, he invited our team to do a permanent sound installation throughout the entire facility and add state-of-the-art lighting and effects.

The quality of service and the trust between Entertainment Express and Spaggi's Event Center also prompted the invitation to become the exclusive entertainment service for the venue. This gave staff and clients a peace of mind that they would be receiving the highest quality service at every event.

Our Core Services are the pillars that ensure a successful event & act as a foundation for building your custom package with Entertainment Express

Disc Jockey - Our DJs are managers of the technical aspects of your day. They handle the programming and mixing of your music selections, operate lighting & special effects, and read the energy of the crowd to create the right atmosphere.

Master of Ceremonies - The MC is your official spokesperson & host. While making announcements & introductions, the MC will communicate & interact with your guests to ensure a good flow and a polished over-all presentation.

Event Direction - Our MCs are also trained event directors who will help guide you through the entire event. This allows you to relax & enjoy your celebration, while your MC keeps you organized & on schedule throughout the process.

Planning Services - Through in-person meetings, phone consults, & email, our team will help you to organize all of your ideas into a cohesive, smooth-flowing timeline utilizing your Entertainment Express Planning Portfolio.

Sound Reinforcement - Our team always uses the highest quality professional equipment to ensure clear & complete sound coverage while also taking the time to design a custom sound setup to fit your event venue and specific needs.

Beyond our Core Services, Entertainment Express offers an array of additional features and unique services that can be added a la carte to create a custom package that fits your vision and allows you to design a finished product that is truly reflective of your individual personality, style and taste.

Are your services **MANDATORY**?

Yes. In order to ensure the quality of service at every event is up to their standards, the venue made our company the required vendor for all entertainment services. The only alternative is to forego booking our team in the form of a buy-out. Buy-out costs vary based on date & payment in full is due upon signing a buy-out agreement. Clients who opt for a buy-out do not have access to any individual services including but not limited to lighting, special effects, sound systems, or any other feature offered by Entertainment Express.

Do I need a **DJ & MC** or just a **TECH** for my event?

This can depend on the type of event and the expectations of your guests. For example, at an event like a business luncheon, fundraiser, or awards ceremony where there will likely be more speaking or presentations than music, an A/V Technician is sufficient. This ensures there is stock background music during the down-time, and a professional available to assist with monitoring the technical aspects. For events like weddings, birthdays, or holiday parties, a DJ & MC team is recommended so you can have a curated playlist that corresponds with the energy of the event, a host to guide you and your guests through the event, and of course a fun dance party!

Can we incorporate a **GUEST DJ**?

Yes! While you are still required to hire our Entertainment Express team, you are welcome to supplement your event with your own DJ for certain portions of the evening. Guest DJs are required to provide certain equipment and are responsible for contacting our team for specific details on what to bring.

Can we incorporate **LIVE MUSIC**?

Yes! While you are still required to hire our Entertainment Express team, you are welcome to supplement your event with additional live entertainment indoors. Live musicians must be self-sustained, providing all their own audio equipment, but we recommend they contact us to review what they will likely need equipment wise. Live music outdoors is only allowed with direct permission from the venue.

What if we need a **BILINGUAL MC**?

Our team does not currently have any bilingual MCs on its main roster, but we do have access to a network of multilingual affiliate MCs. We can't guarantee their availability at the time of booking, but you can request that one be subcontracted for your event for an additional fee. Alternatively, you can hire your own MC to work alongside our team or have a trusted friend or family member assist with MC duties or interpreting.

Can we use our own **COORDINATOR**?

Yes! Event planners are welcome, though not mandatory. We do require that the coordinator attend our *Entertainment Planning Meeting* where the timeline is crafted. We also encourage them to attend venue meetings to ensure they are familiar with their planning process.

Are there any **ENTERTAINMENT SERVICE OPTIONS** that we can bring ourselves?

Yes! You can usually bring in your own décor or entertainment rentals if they don't require electricity or have the potential to damage the facility. We always recommend contacting us to double check if an item must be booked through our team or can be handled on your own.

"If I could, I would give Entertainment Express 100 stars, 5 is simply not enough! My guests were raving about the music and MC services and stated it was the best wedding they have ever been to! Overall: HIRE THEM. THEY. ARE. AMAZING."

-Stefanie

"Entertainment Express doesn't only provide music, they provide an experience. From DJ services, to music, lighting, audio/visual help, their guys are experienced entertainers. They also guide you through a detailed timeline (a MASSIVE stress saver) down to the second. So really you are getting much much more than a 'DJ'."
